

Design, comfort and a sense of security are what characterize the atmosphere in Buildings.

Modern electrical installation technology sets the tone for the days activities. We offer you switch ranges and state-of-the-art technology for the perfect control of light, shading, climate and media. And at the same time profit from efficiency, because much will adjust itself automatically.

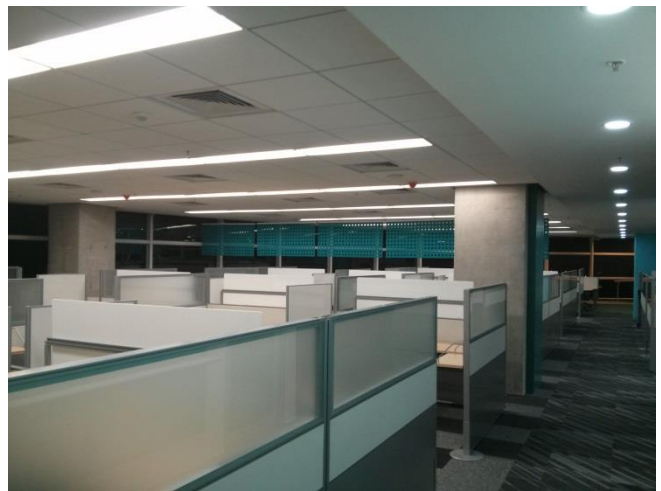

Tanti offers you – the traditional and innovative brand for electrical installation technology that is also internationally successful ABB-Group.

- ISO 9001:2008 to-be-certified, Delivering projects within deadlines, without any compromise on quality.
- Adept at providing expert, innovative solutions, with a customer-centric approach.
- Having the experience of executing the projects exceeding 2 lakh square feet.
- Capability in providing conventional Electrical and Automation consultancy and achieving excellent detail in electrical drawings for commercial and residential segments.

Geared towards providing complete Building Management Systems and Electrical Automation Design Inputs.

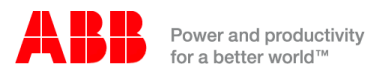

Tanti was an early adopter of KNX technology in India and is driving success with initiatives in achieving complete Green Building specification

Success stories. Excellent partners. Special clients.
